Talk on 'e-Pravesh'

PANJIM(HND): The Strategic Planning and Economic Development Committee of GCCI will be organizing a presentation on 'e-Pravesh' TM - an online platform for a complete solution to the pre-admission and prospective student interaction process of any institute on January 8 at 4.30 pm. This platform would be able to bring students, parents, working executives and educational institutes from Kindergarten (KG) to Post Graduation (PG) together for mutual benefits. At present pre-admission processes for autonomous courses are the main target for the usage of this platform. This is an attempt to make use of Information Technology prevalent in educational institutes, in making lives of Indian students better.

ePraveshTM Advisory Board is graced by veteran thought leaders such as Dr Arun Nigavekar (former Chairman of UGC, VC of University of Pune and Founder Director of NAAC) as well as Dr Ashok Ghatol (Ex member, ISTE and former VC BATU), says a press release.
